

To Whom It May Concern,

I have recently become a subscriber to XM Satellite Radio, and I have come to appreciate the wide variety of programming available. One of the stations that I listen to every day is the Instant Traffic and Weather for Detroit. There is no such service available on any other media that gives CONTINUOUS traffic reports. This is one of the main reasons that I subscribed to XM, and I gladly pay the monthly charges for this service alone.

I STRONGLY oppose NAB's petition 04-160, or any other bill that proposes to limit me from receiving this critical service that I chose to pay for.

I urge the FCC and all members of Congress to oppose this petition!!

Thank you.
